

Wyatt Snyder

Wyatt.Snyder@baylor.edu — 405-625-2027

Summary

Junior Computer Science Fellows major at Baylor University, currently undergoing research in machine learning. Seeking an internship in computer science or software engineering area to further my growth.

Education

Baylor University

Major — Computer Science Fellows

Expected Graduation

Secondary Major — Mathematics

May, 2019

GPA — 3.96

Relevant Coursework — Data Structures, Systems Programming, Introduction to Computer Systems

In Progress - Intro to Algorithms, Database Design, Software Engineering I, Intro to Java

Experience

Baylor University, Student Athlete Tutor

August 2017 - Present

- Assisted student athletes in their academics by strengthening their understanding of subject material in topics of computer science and mathematics.
- Worked with individual students throughout the semester.

LightSys, Code-a-thon Mission Trip

Spring Break 2017

- Worked on a team to design an android app that would send prayer requests to missionaries in persecuted countries.
- Set the foundation for the app by using software engineering practices such as analysis and design, implementing use cases and sequence diagram models.

Additional Employment

- Waiter at Pelicans restaurant *March-July 2016, June-July 2017*
- STEM Tutor at Rose State College *September 2015 - July 2016, June-July 2017*
- Private Piano Instructor *March 2015 - July 2016*

Technical skills

Programming C++, C, Java, MySQL, L^AT_EX, HTML, CSS, Git

Leadership and Organizations

Co-Founder and President of The Unicycling Academy

- Worked with vice-president to organize and oversee weekly meetings.
- Taught members how to ride, and guided them in practice.
