Wyatt Snyder

Wyatt_Snyder@baylor.edu — 405-625-2027

Summary

Seinor Computer Science major at Baylor University.

Education

Baylor University

    Major — Computer Science   *Expected Graduation*

    Secondary Major — Mathematics   *December, 2019*

    GPA — 3.59

    Relevant Coursework — Data Structures, Systems Programming, Introduction to Computer Systems, Intro to Algorithms, Database Design, Software Engineering I, Intro to Java, Data Communications,

Experience

Accio Data, Computer Science Intern   *June 2018 - August 2018*

- Modified company's dynamic and static web pages to create a more mobile friendly experience

- Created automated testing via Cypress for various web pages throughout the website

- Implemented responsive design to a legacy code base, working with back end logic to re-factor sections of the code to be more readable and understandable

Baylor University, Student Athlete Tutor   *August 2017 - Present*

- Assisted student athletes in their academics by strengthening their understanding of subject material in topics of computer science and mathematics.

- Worked with individual students throughout the semester.

LightSys, Code-a-thon Mission Trip   *Spring Break 2017*

- Worked on a team to design an android app that would send prayer requests to missionaries in persecuted countries.

- Set the foundation for the app by using software engineering practices such as analysis and design, implementing use cases and sequence diagram models.

Additional Employment

- Waiter at Pelicans restaurant   *March-July 2016, June-July 2017*

- STEM Tutor at Rose State College   *September 2015 - July 2016, June-July 2017*
